Commercial Ground Maintenance

## Environmental Policy Statement

Newman Landscapes Ltd is an environmentally conscious Company and as such we acknowledge the potential environmental impact that our Landscape maintenance operations may have on the environment.

This policy has been endorsed by the Managing Director who gives his full support to its implementation. The Managing Director in co-ordination with the Environmental Management Representatives are responsible for ensuring that it is communicated, understood, implemented and maintained at all levels within the Company.

We are committed to the prevention of pollution and continual improvement of our environmental performance. This has been facilitated through the setting of environmental objectives based on our significant environmental aspects. These objectives will be documented, targets allocated and periodically monitored and reviewed through 'audit programmes'. The results of which are communicated throughout the Company and to our 'clients and contractors, local organisations, residents where appropriate.

### **As a Company, we are committed to ensuring that we: -**

- Comply with all environmental legislation and other requirements, including, codes of practice and guidance produced by regulatory bodies and the British Association of Landscape Industries, where these relate to our environmental aspects.
- Provide all employees with the necessary resources, equipment, information, instruction, and training to fulfil the requirements of this policy, commensurate with their role.
- Work towards implementing an environmental management system that complies with the requirements of BS EN ISO 14001: 2004, as defined within the scope of our EMS.
- Strive to integrate environmental best practice into our business operations.
- Prevent pollution to the environment by ensuring that we manage business mileage and the use of fuel.
- Minimise waste to landfill by reducing our waste generation and by segregating and recycling waste where economically and operationally feasible.
- Co-ordinate deliveries and business mileage to maximise fuel efficiency.
- Use energy, water, materials, and other natural resources as efficiently as possible, giving particular regard to the long-term sustainability of consumable items.
- Ensure that the environment is considered in the procurement of goods and services.
- Work together with local businesses, neighbours, partners, or suppliers to encourage commitment and improvement in our local environment.

This policy will be communicated to all employees and organisations working for or on our behalf.

Commercial Ground Maintenance

Employees and other organisations are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work, so far as is reasonably practicable, is carried out without risk to themselves, others, or the environment.

This policy will be reviewed on an annual basis by the Managing Director and where deemed necessary will be amended and re-issued. Previous versions of this policy will be archived and are available upon request.

This policy statement is brought to the attention of all employees by being displayed on site and available in employee handbooks. It is also made available publicly through our website, reception areas or as may be reasonably requested by any interested party.
